

# SINGLE AND MULTIPLE VESA MOUNT SYSTEM

Rack Mounted Bracket  
**RMVM-200**

The single or multiple monitor mounting system provides rack mounting of VESA Standard (75mm, 100mm and 100 x 200mm) mount monitors in single and multiple mounting configurations.

The system is comprised of an adjustable rack mounted bracket, RMVM-200, plus the required mounting plates and adapters necessary to mount the desired monitor combinations. The RMVM-200 provides settings for in and out adjustment as well as tilt adjustment to obtain better monitor viewing angles. Horizontal adjustment of the monitor(s) is also provided which allows flexible monitor positioning.

Monitors may be mounted in portrait and/or landscape directions as well as mixing different sizes as shown in examples below:

75/100mm VESA  
Mounting Plate  
**VMP-75/100**

200mm VESA  
Mounting Plate  
**VMP-200**

Offset VESA Mounting Plates  
**75mm Left/Right VMP-075L/R**  
**100mm Left/Right VMP-100L/R**

Single 20" Monitor

Triple 17" Monitors

Single 24" Monitor

Dual 17" and Single 22" Monitors

Dual 24" Monitors

Dual 22" Monitors

Dual 24" Monitors tilted down  
for improved viewing.
